## Veterans Day Breakfast Scenes

A long line waits in Simon George Hall.

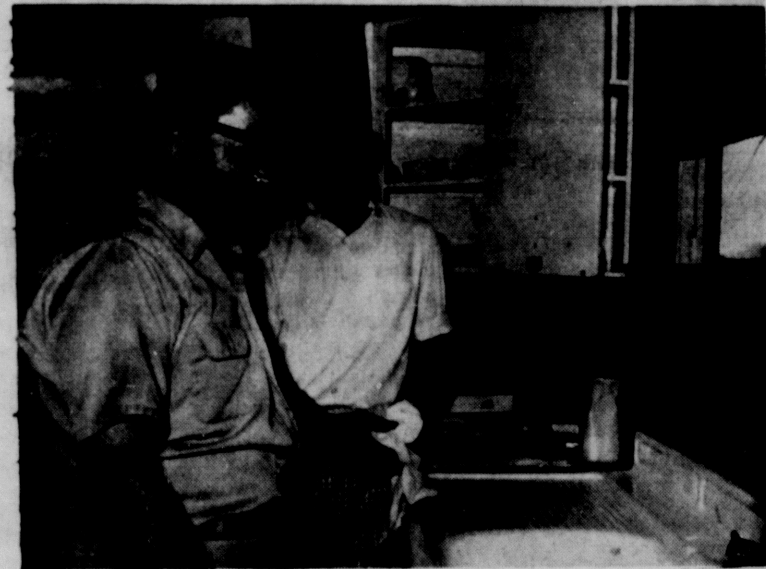

In the kitchen, eggs await the cooks.

Wayne Wieser and Andy Raymond man the skillets.

These folks enjoy a morning meal.

And someone has to do the dishes.

## Judgment Entered For Alcoa

An agreed judgment was entered Tuesday in Milam County's 20th District Court in the civil suit brought by the State of Texas against Aluminum Company of America's Rockdale Works.

The suit alleged that the Central Texas plant was in violation of the Texas Clean Air Act, citing emissions from boiler stacks at its steam-generating power plant. The judgment, entered without finding violation by Alcoa but as the resolution

of disputed claims, ordered the State of Texas to recover \$20,000 from the company.

The state had asked for a maximum fine of \$1000 per day beginning April 12, 1973, and every day thereafter, and an injunction against further violation of Texas Air Control Board regulations.

In a statement issued after the settlement, Alcoa reminded that it had begun engineering on emission abatement equipment for the boilers in 1972, long before litigation was brought by the state.

Fred Bergeron, plant manager, said Alcoa is spending several million dollars for electro-static precipitators which will bring the boiler stacks into compliance with all impending state and federal regulations.

Bergeron said emission abatement equipment has already been ordered and installation will begin next April, with completion scheduled the following spring. The boiler stacks are situated alongside a lignite dryer stack which Alcoa spent \$1.5 million for two years ago during another emission-abatement project.

## Homecoming Set At Milano

Milano will hold its annual Homecoming Friday night as the Eagles meet Jonesboro in a football game. Kickoff time is 8 p.m.

All ex-students are invited to the activities, which will include the crowning of a Homecoming Sweetheart.

Candidates for the honor include freshman Joni Garrison, daughter of Mr. and Mrs. Eugene Rose Jr.; sophomore Sara Davenport, daughter of Mrs. Dorothy Davenport; junior Sue Rose, daughter of Mrs. Lois Rose; and senior Sandra Thurman, daughter of Mr. and Mrs. Kent Thurman.

A reception honoring the football team, cheerleaders, pep squad and ex-students will follow the game, according to Supt. R. L. Porter.

## German Group To Dance At Wurstfest

Cameron's German Folk Dancers will again perform at the Wurstfest (Sausage festival) at New Braunfels this year. The festival is expecting some 150,000 people November 2 through 11.

Four couples of the dance group will perform November 4 and the whole group will dance on November 10.

Charles Kunz directs these widely known dancers, all residents of Cameron. The group was organized for the first Cameron Folk Fete in 1970. They performed last year at the Wurstfest as a programmed feature group.

The dancers will appear in Wurst-

halle, 410 feet by 70 feet, before crowds of 2,500 to 3,000. Halle capacity.

Last year 135,000 people visited Wurstfest and consumed more than 40 tons of sausage, quenching their thirst with 37,000 gallons of beer (locally referred to as New Braunfels ice water) while they tapped their foot or danced to the rollicking strains of polka bands.

Wurstfest highlights include the return of Myron Floren, popular TV personality of the Lawrence Welk Show, for his sixth consecutive appearance at Wurstfest. Floren will appear daily November 5 through 8.

Other activities include a sailboat regatta at Canyon Lake and a canoe race down the Guadalupe ending at the main plaza in New Braunfels. Entertainment as well as homemade German foods will be available at the popular Gartenfest.

In addition to the variety of polka bands, the Wurstfester will be entertained by the Kinderchor and Engelkinder, German children's choirs, authentic German folk dancers, and even an old timey melodrama.

## Day Care Center Needs UF Help

(Another in a series of stories about United Fund agencies served by the local fund raising drive, which will start the first week of November.)

The Cameron Day Care Center is the result of years of planning by local churches and laymen, and opened in October, 1972. The center will receive \$1,000 from the United Fund.

The day care center is financed through local gifts and contributions which are matched on a 7 to 3 basis by the State Department of Welfare. Gifts are given by churches, individuals, clubs, and civic groups. Benefit suppers this fall and winter will be held for the center.

Two main purposes of the center are to provide adequate child care

and supervision for mother who work to provide income for family living and to provide Christian care and training for children who might otherwise have little chance to receive such supervision.

The center is open from 7 a.m. until 5 p.m. for working mothers or mothers who are in job training. The family income also must be below certain guidelines for the children to be eligible to attend the center.

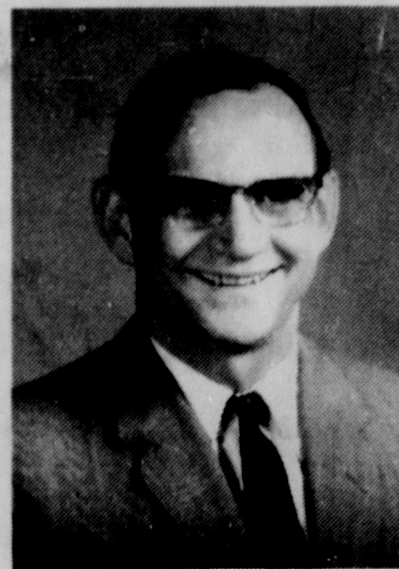

Children have pre-school or kindergarten type schedules during the day, including games, music, library visits, naps and lunch. The center is located in a house across from the Methodist Church, which donated the building for that purpose.

Mrs. John (Lucille) Gelner is administrator, Mrs. Wilmer Floyd, assistant administrator, Mrs. Irene Si-

mons, teacher, and two high school girls are assistant teachers. Besides there are only two volunteers. If anyone would like to help two hours, four hours, or more during the week they may call 697-3591.

Ages of the children are from 3 to 5. To be eligible for the center, the children's mother must be working or in job training. They do not have to be on welfare.

Rev. John Homerstad is chairman of the board of directors of the center. Rev. Perry Richardson is vice chairman. Directors include Mrs. Elaine Perrin, Mrs. Elma Flores, John B. Henderson Jr., Mrs. David Thomas, Mrs. R. J. Woodum, Mrs. Betty Humble, Mrs. Bobby Looney, Mrs. Doris Lafferty and the parents representative is Mrs. Mary Townsend.

Sen. Bill Patman

## Sen. Patman To Speak At County Meeting

State Senator William N. (Bill) Patman of Ganado will speak at the Annual Milam County Program Building meeting Monday night, October 29 at 7:30 p.m. in the Home Demonstration Clubhouse (Fair Park) in Rockdale, according to Max McClaren, County Chairman.

There will be a short business session followed by an address by Senator Patman and a reception following the meeting.

Senator Patman represents the 18th Senatorial District, which now consists of the following 13 counties: Bastrop, Bell, De Witt, Fayette, Goliad, Gonzales, Jackson, Karnes, Lavaca, Lee, Victoria, Williamson and Milam.

## Turn Clock Back One Hour Sunday

Sunday will be the day to change clocks from Daylight Savings Time back to normal. Official time for the change will be 2 a.m. Sunday, but you can turn the clock back one hour before you go to bed Saturday night.

This will give everyone a chance to get back the hour lost when clocks were set forward in the spring.

Just remember, "Spring forward, fall back," and the change will be less confusing.

# 114

With F.M.L.

The refrain returns from an inconsequential song, the question everyone ultimately asks:

"What's it all about, Alfie?"

A man can expend an extraordinary amount of energy finding an answer, if there is an answer beyond keeping one's self respect and deserving someone's love.

"Momentum, Alfie?"

That's my guess, Alfie, the alternative to inertia, taking lightly what so wearies the worrier, the befuddled, the incomplete, all of which we are one time or another.

"Giving, Alfie?"

"Til there's little left to give, Alfie, 'til the blind see, the dumb think, the deaf hear, 'til the world turns over without us, turning over with somebody new, somebody coming after us, somebody we put there, Alfie."

"Remembering, Alfie?"

Beyond one's self, Alfie, is where we really live, if we are really alive, remembering Robert Southwell's saying:

"Not where I breathe, but where I love, I live."

That's a part of what it's about, Alfie. Embarrassed, he-man ego aside, that's what it's about.

114-114-114

Pablo Casals, 16 years better than an octogenarian, died Monday. One of the news networks showed a film clip of the grand cello master playing while his dubbed-in voice sounded.

"Each is a leaf," Casals voice said, "of a tree which we are all a part of."

And the Casals leaf falls away from the tree, free to the ground of this

tree of life, to moulder and dust and replenish a bit at the foot, the breeze wafted by the mellow strum of this cellist's bow, now bowed.

114-114-114

The point of experience is to affirm what our senses disbelieve.

## Traffic Mishap Injures Two Here Sunday

Two young residents were injured in a car-motorcycle accident at 4 p.m. Sunday and are both in a Temple hospital suffering broken legs.

On the motorcycle were James Dove and Arlene Mataystik when it collided with a car at the intersection of 18th and Fannin.

The young people were first taken to St. Edward Hospital and then transferred to Scott and White at Temple by ambulance. Dove has a compound fracture of the leg and Arlene has a fracture of the leg.

A minor accident was investigated by Cameron police Monday morning at the intersection of Highway 190 and North Crockett. No injuries were reported.

Drivers of the cars were James Schoppe and Rufus Reicher, both of Cameron. They were both traveling east on 190 when Schoppe started to make a left turn onto Crockett. Cameron police said Reicher was following too close and collided with the rear of Schoppe's car.

## Milam Scouts Now Distributing Good Turn Bags

Milam County Boy Scouts will be joining more than 10,000 in the Central Texas area who are distributing Good Turn Bags through October 27 and asking residents to fill them with repairable clothing and household items.

This is a good chance to go through your closets and drawers and dispose of any unused and unwanted items you may have. You may not want these discards, but they are the life blood to the 170 handicapped persons being trained and employed at the Heart O' Texas Goodwill Industries facilities.

These unwanted items are repaired and processed and sold in the eight Goodwill retail stores in Waco, Killen, Temple, Harker Heights and Hillsboro. The proceeds are used to pay the wages of the handicapped and to provide the rehabilitation program for those who need opportunities for improvement and advancement.

"Five bags filled with repairable or wearable discards of any kind can provide a day's work for a handicapped person," said A. P. Garrett, executive director. "He then can become a taxpayer rather than a welfare case number."

So, please fill your Goodwill bag and place it on your front porch before 1 p.m. on Sunday, November 4. A scout will come by and pick it up. If you have larger items to donate like furniture or appliances, call any of the Goodwill facilities and a truck will pick up your donation. Your discards make time cards for the handicapped people asking not for charity, but a chance.

## Funeral Service Held For Stabbing Victim

Funeral services were held at 2 p.m. Monday for the victim of a stabbing and a Cameron man is in county jail charged with the murder of his father.

Pronounced dead at the scene at 1803 North Fannin Street early Saturday morning was Marion W. Whittington, 76. His son, Riley Whittington, 42, of Cameron was charged with murder in Justice of the Peace Jess Brock's court. He is being held in county jail in lieu of \$10,000 bond, officers said.

A call came in to the Cameron police station at 2:06 a.m. after Whittington's half brother was called by Riley who said he had killed his father. Police officers Maurice Lowery and Joe Cottle answered the call, and then called Police Chief Martinez. Sheriff Carl Black was also called to the scene.

Brock pronounced Whittington dead due to stabbing. He said Whittington had been stabbed 14 to 16 times with a butcher knife measuring more than six inches long. The knife was found stuck in a door.

Funeral was held at Green Funeral Home with Rev. Thomas Dusek officiating. Burial was in the Pebble Grove Cemetery near Cameron.

A native of Milam County, Mr. Whittington lived in Cameron all his life. He was a retired Cameron school custodian.

Surviving him are his wife, Mrs. M. W. Whittington of Cameron; two daughters, Mrs. Minnie Earl Solomon of Temple and Mrs. Evelyn Page of Wichita, Kans.; on son Ri-

ley Whittington of Cameron; four step-children; three sisters, Mrs. Flores Rose of Houston, Mrs. Effie Scarbrough of Galena Park and Mrs. Gertrude Whittington of Cameron; three brothers, Riley Whittington of Freeport, Pete Whittington of Waco, and Ollie Whittington of Cameron; and three grandchildren.

## Job Placement Service To Open At Chamber

A placement and application service is being established for Milam County by the Texas Employment Commission and the Cameron Chamber of Commerce.

The Chamber of Commerce office under the management of Mrs. Barbara Smitherman, will be the location of this service, J. V. Owens, manager of the Temple office of Texas Employment Commission announced.

Owens stated the service is to begin Thursday, October 25, on a weekly basis from 9 a.m. to 12 noon. Morris Evans, interviewer, will be in charge.

Employers needing workers, both industrial and farm, are requested to call Evans at 697-2541. Applicants needing jobs are urged to register for work at the Chamber office.

## Within The Constitution....

If this country is bigger than the least of its citizens, it is also bigger than its most highly elected.

Richard M. Nixon almost forgot this. But he didn't this side of impeachment.

He is turning over the tapes, for whatever they contain. Whatever is on them, it could do little more damage than the resignation of his own attorney-general and firing his own deputy attorney-general.

Archibald Cox, a former solicitor general under Kennedy and labor counsel, was a mite political in emerging as a special Watergate counsel acceptable to a Democratic - controlled Congress. His firing for trying to do exactly what he was commissioned to do could be considered quid pro quo.

But Richardson, who handled one of the toughest legal issues of this century in the Agnew pleading and resignation, is no lightweight. Nor is Ruckelshaus, who has served all over the administrations of Mr. Nixon. And both are Republicans.

Senator Stennis' monitor-

ing of the tapes was turning a judicial function back to the legislative, a circumvention of the Constitution that compelled friend and foe alike to acknowledge serious impeachment talk.

But the President put things back on the track by Tuesday afternoon's announcement that the tapes were forthcoming.

Perhaps a sign that this would happen came Monday morning when everybody but Cox turned up for work at the special prosecutor's office. Perhaps sealing off of the attorney - general's office, not only the President's first attorney, but the country's turned the screw once too often.

As we understand it, a grand jury or other proper authority will hear the tapes. An acting attorney general, third in line of succession at "this office of the revolving door," confirms this.

Beyond this enormous struggle over the tri-partite separation of powers under the Constitution, the White House tapes will be heard within the framework of the Constitution.

## About Grand Juries...

We're going to have to hurry to comply with the rule of three-grand jury sessions per year, aren't we?

One has been held during calendar 1973.

**"Low Down"**  
FROM THE  
Congressional  
Record  
By JOE CRUMP

(A Column for Readers Who Haven't Time to  
Review the Congressional Record Daily)

### CAN WE AFFORD LONG HAULS BY TRUCK?

Senator Hugh Scott (Pa.) "... An editorial in the Titusville Herald describes in detail the great need for improving the railroads. ... The editorial was ordered to be printed in the Record. (Condensed editorial follows):

#### Plight of the Railroads

American railroads had a record freight-hauling year in 1972 and are doing better this year. But with a few exceptions, most of them are in miserable financial shape. In spite of the freight boom they can't afford to maintain their tracks, install new signal facilities or buy all the new cars they need.

What's the trouble? The Magazine Business Week puts the answer this way:

"The railroads cannot earn enough money to renew their facilities partly because their rate structures are outmoded ..."

Everyone realizes that this country is facing an energy shortage. Greater use of railroads is one of the best answers to this problem. At speeds above 6 miles an hour, railroads are the most efficient users of fuel in freight transportation. Energy consumption per ton mile expressed in British thermal units clearly shows this. Waterways are the most efficient with 500 BTU per ton mile, railroads are only slightly less efficient with 750, pipelines use 1,850, trucks 2,400 and air freight 63,000.

The railroads need federal help — massive and right now — and the figures show they deserve it, hauling a record-breaking 780 billion ton miles in 1972.

#### CRUMP'S GRASS ROOTS COMMENT

The petroleum fuel shortage will get worse. The bottleneck is refining

capacity. Crude oil is of little use until it's refined. It takes 3 years and \$250 million to build a refinery. To face the facts, long hauls by truck should be restricted. When people are compelled to turn down their home thermostats, crowd into public transportation, forced to ride in car pools and cancel vacation trips, a truck, on a long haul, belching diesel fuel exhaust will produce bitter resentment. The powerful trucking lobby in Washington will vehemently oppose any restrictions. But unless they can come up with a solution to the petroleum fuel shortage, they'll lose the fight.

Largest spider award goes to the Theraphosa leblondi, which has a leg span of 10 inches.

Dateline Austin

## Hobby Calls For Reversal Of New Water Standards

By Bill Boykin

Future development of major Texas water projects will come to a halt unless new standards laid down by the National Water Resources Council are reversed, Lt. Gov. Bill Hobby said.

Hobby, joined by State Gen. Max Sherman of Amarillo, and serving as spokesman for four Texas water advisory councils, urged President Nixon and Texas congressmen to alter the regulations.

"Unless this policy is reversed," said Hobby, "Texas stands to be harmed very substantially."

The new principles and for planning water and related land resources are effective October 25.

While acknowledging that they have merit, Hobby said, they would destroy "the long established partnership between federal and state governments for development of water resources. For all practical purposes, the thrust of principles and standards' wipes out the present day mechanics for use and control of water, and falls short of practical substitutes."

A proposed "discount rate" feature, claimed Hobby, precludes federal participation in traditional development of water projects. The standards, he maintained, would further force impractical planning for projects on an instate basis.

In the last five years, more than \$850 million have been invested by the local, state and federal governments in Texas water projects. About a fourth of that was federal money.

Refusal by the federal government to finance in the future "non-reimbursable features" such as fish and wildlife, recreational benefits and flood control provisions would ban parts of water projects that "tend to enhance the environment," said Hobby.

#### CONVENTION PLANNED

Legislators are being polled on a proposal to split next year's constitutional convention into two sessions -- one from January 8 to April 6 and the second after mid-June.

Sen. Bill Meier of Euless offered the suggestion, contending that the convention may be poorly attended just before May and June primary elections. Many legislators, who are delegates to the convention, will face opponents for re-election.

The recess, as proposed by Meier, would give legislators nearly a month to campaign before the May primary and another month before the June runoff.

Meanwhile, House Speaker Price Daniel Jr. urged lawmakers to set a 90-day flexible and extendable ti-

metable for the convention and try to finish the job of rewriting the constitution by early April. He said legislators can do it by making use of the research of the Constitutional Revision Commission as a beginning point. Daniel said taxpayers will be saved nearly \$2 million if the convention winds up in 90 days rather than extending over the full 170 days allowed.

#### ALLOWABLE AT 100

For the 20th straight month, the Texas Railroad Commission set the November statewide oil allowable at 100 per cent.

Exceptions again were made for the East Texas Field, Kelly-Snyder, Tom O'Connor and several others, where the allowable was retained at less than 90 per cent of potential.

#### AG OPINIONS

Counties may use federal revenue sharing funds to contract with private non-profit corporations to construct recreational facilities for the aged, Atty. Gen. John Hill held.

In other recent opinions, Hill concluded:

"There is no authority and no appropriation for paying state employees who resign or are dismissed (except in case of death) in lieu of accrued, unused vacation time."

"A Californian non-profit dental service corporation is not providing dental service in Texas by entering a contract to pay for dental services of a Delaware corporation, including its Texas facukutt employees where dentists are not chosen by employees."

"The state comptroller must pay statutory witness fees for out-of-state witnesses into the court registry on certification by the judge that fees are necessary to compel attendance. A county can advance funds and by reimbursed by the state."

"A State Insurance Board order authorizing companies to set unusual risk rates subject to later board approval is not authorized."

"A reduction in appropriations for the state board of Pardons and Paroles in event of refunding by the Criminal Justice Council of

## OLD PHILOSOPHER

Dear editor:

I have been concerned about the bad image some people in this country have been giving lately to jack-rabbits.

And I don't understand why the environmentalists haven't leaped to the jackrabbit's defense, for you can be sure that when a species or a man loses his good image each is endangered, as too many people in Washington can now testify.

Here's the situation: I have noticed that some television commercials are using the jackrabbit as a bad example. A gasoline company for instance says if you take off too fast in your car and wasting gas. It shows a live jackrabbit in the act racing a turtle, with the rabbit running out of fuel and holed up exhausted while the turtle wins and has enough money left over to feed its family. A razor blade company says its competitor got off to a jackrabbit start in putting two blades on one side of a razor, while it took its time like any turtle would and came up with two blades on both sides, thereby winning the race.

Since neither jackrabbits nor turtles drive cars or shave, this evidence probably would be thrown out of any court, if the judge gave a definitive decision, which is beside the oint. What I'm saying is that these commercials are holding jackrabbits up to public contempt and it's unfair.

Jackrabbit starts, while they no doubt are bad in cars, are life-savers with rabbits. Who's to say turtles wouldn't stay out of soup longer if they could manage jackrabbit starts? Or that jackrabbits' lives wouldn't be shortened if they could make only turtle-starts?

Those commercials ought to leave jackrabbits out and refer simply to quick starts and slow starts. To do otherwise is species-ism which like racism, has no place in the world if all living things are to dwell on this earth in harmony.

I've got to add though that I do not include rattlesnakes and brown spiders in this list. They'll put a man in the hospital.

Yours faithfully,  
J. A.

## The Family Lawyer

### Godless Parents

At first blush, the Wilsons—seeking to adopt a baby boy—seemed to be well suited for parenthood. They were a devoted, idealistic young couple, with high standards of morality.

But there was a problem. They did not believe in a Supreme Being. Was this grounds for disqualifying them as adoptive parents?

After a court hearing, the judge said it was not and granted the adoption. It would be unconstitutional, he said, for the state to require a belief in God in order to adopt a child.

"The First Amendment not only requires the state to be neutral between various religions," added the judge, "but between religion and non-religion as well."

Most courts would agree that a belief in God is not essential. Nevertheless, religious attitudes may carry at least some weight in the determination of parental fitness.

Thus, in another case, a court ruled in favor of adoptive parents (and against the child's own father) partly because of the re-

ligious atmosphere of their home.

As one judge put it: "Religion and morality are inextricably interwoven in the lives of most people in this country, and belief in the tenets of a religion may be indicative of moral fitness in a particular case."

Furthermore, it usually helps if the would-be parents and the child have the same religion. Often, state laws call for this "matching up" of religious affiliations.

But again, this is not a hard-and-fast rule. Thus, courts have allowed non-matching adoptions when it would take considerable time to find adopting parents of the same faith.

Reason: the importance of promptness in arranging placements.

"In view of the emphasis placed by child care experts on a stable and wholesome environment in early infancy," said one court, "delay must be deemed detrimental."

# County Farm Bureau Adopts 23 Resolutions

The Milam County Farm Bureau, at its county convention last week, adopted a number of resolutions on constitutional issues. The resolutions follow:

1. Believe the Texas State Legislature should continue biennial sessions which are limited in number of days to 160. Also that special sessions should only be called by the Governor -- not by the legislature in any fashion.
2. Believe that legislative and other state officials salaries should be set by voters.
3. Believe that the executive branch should have A) Appointive power of all agency heads and board members. B) Line item veto power of the budget. C) Exclusive budget proposal rights.
4. Believe all judges except the supreme court judges should be elected.
5. Believe the Supreme Court and Court of Criminal Appeals should be combined.
6. Believe that the Justice of the Peace should be eliminated in favor of a Circuit Court.
7. Believe taxation regulations on agriculture land should be a constitutional limitation rather than by laws.
8. Believe the state should continue on a "Pay as you go" basis and not adopt a deficit financing system.
9. Believe that the taxing

authority should remain at the lowest possible elective governmental body where funds will be used as long as the property tax exists; however we stand for abolition of the property tax as soon as possible and that it be replaced with an increase in the sales tax or an income tax or a combination of both.

10. Favor keeping within the constitution tax exemption protection for residence homesteads, house hold goods and personal effects not used for the production of income and farm products in the hands of the producers.

11. Believe that the unit of government closest to the citizen should retain the maximum amount of authority consistent with efficiency.

12. Believe that kindergarten should not be mandatory.

13. Believe the constitution should definitely have a "right to work" guarantee.

14. Believe that only the tax paying citizens should have the right to vote on bond elections.

15. Believe that the method of amending the Constitution should remain as it presently is.

16. Believe that the spending limit on welfare should remain a Constitutional stipulation.

17. Believe that terms of office for Governor and elected officials remain as they are with the addition of a total limit for Senators and

Representative of 12 years.

18. Believe that if at all possible price controls and export controls should be avoided.

19. Believe that the split season for dove hunting should be discontinued and a revision of the 60 continuous 1/2 day be made.

20. Believe that the state Secretary of Agriculture be appointed but all other Dept. heads be elected.

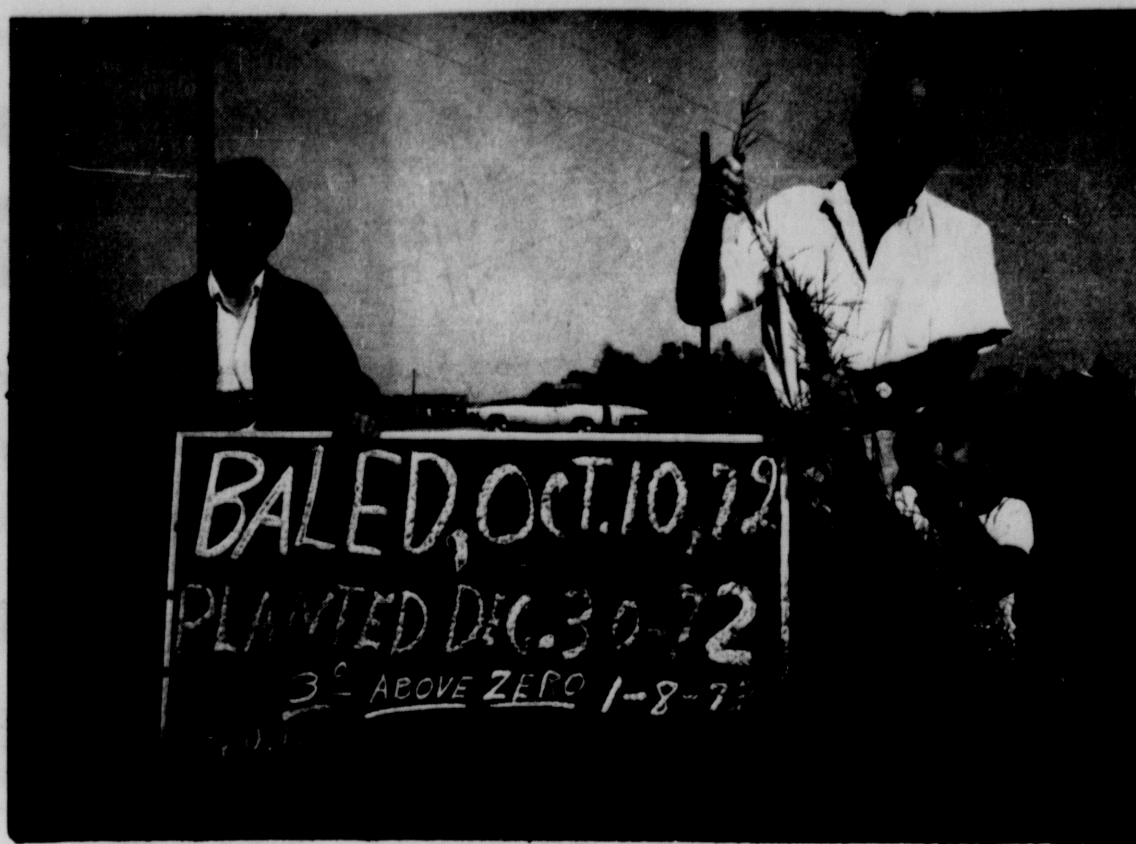

21. Believe that mineral rights of private land should revert to present land owner after 10 years of none production or 10 years of no exploration.

22. Are opposed to all attempts of land use planning laws.

23. Any State income tax passed by state of Texas to be run in tandem or parallel with federal income tax so as to minimize paperwork and avoid setting up a huge state income tax bureaucracy.

## GROCERS SEMINAR

The Second Annual Retail Grocers Seminar will be held at Texas A&M University Oct. 26. The seminar will begin at 8 a.m. in the Holiday Inn No. 2. Discussions will be featured on the food industry, food distribution research, food industry training needs, consumer viewpoints, advantages and disadvantages of boxed beef at the retail and packer levels, and National Livestock and Meat Board programs for retailers.

TALL TALE? W. H. McCormick of Rogers and grandsons Kurt and Greg Morton in a test plot of Zimmerley Select bermuda grass. The planting material was green baled and was planted in December, by hand in bedded rows. Top growth went through three degree wea-

ther. In May the beds were leveled with a drag harrow. Six bales of the hay were planted in April with enough coming up to prove that it is possible to green bale the hay in October and six months later plant it.

## Fall Armyworms Active

By Bill McCutchen

On or the longest seiges of fall armyworms I can ever remember is continuing with many producers being forced to spray small grain pastures.

This pesky critter has been around most of the summer and is picking up steam again with lush winter pastures and bermuda pastures high on his list of preferred diets.

The fall armyworm is easily controlled, but extensive damage can occur before growers notice an infestation.

## Avoid Prussic Acid Problem

Although warm weather tends to indicate that winter is still a long way off, freezing weather will be here soon. Such a killing frost can mean danger for livestock producers that have cattle grazing on sorghum stubble or any of the sorghum-sudan hybrid pastures.

The reason is prussic acid poisoning of the animals.

The danger of prussic acid poisoning exists mainly in pastures and fields where sorghum stubble is making regrowth and where there is

vigorous, young growth of Johnsongrass, sudan-sorghum hybrids and related plants. Such growth generally has a high content of prussic acid, especially if produced under stress of dry or cool weather.

The main danger to livestock is grazing such pastures and fields immediately after a killing frost.

Livestock producers should wait a week to 10 days following a killing frost before allowing cattle to graze suspect pastures and fields. If only a light frost occurs, remove the cattle until plant growth is killed by a heavy freeze.

**Dry Weather Needed**  
Rains have kept farmers out of the fields for several weeks and they are hoping that the break in the weather will last 2 to 3 more weeks.

About 65% of Milam County's cotton crop was out prior to the last seige of rain and 2 to 3 weeks of open weather would allow most of the remainder to be harvested.

The 1973 crop was a second excellent crop in a row and may prove to be even better than last year's bumper crop. Last year's crop was either excellent or failure depending upon who you were talking to.

## Big Change Noted In US Agriculture Picture

U. S. agriculture's sudden about-face from a traditional surplus situation to one of relative scarcity is because more people are demanding more and better food and fiber, and they have more money to spend.

The big change, says Dr. Carroll G. Brunthaver of Washington, D. C., and assistant secretary of agriculture, is occurring in a period of unsurpassed economic activity here and abroad.

Brunthaver was a speaker Thursday in a special seminar sponsored by the Texas A&M University Agricultural Economics and Rural Sociology Department. He is in charge of the USDA's International Affairs and Commodity Programs.

The secretary said the U. S. grain industry, for example, has for decades worked with large surpluses. Now, very suddenly, millers are obliged to scrounge for grain and compete with foreign buyers. No more brimming Commodity Credit Corporation stocks to tap.

Brunthaver listed two major factors which he believes brought on the situation.

Demand for U. S. agricultural products has jumped in many foreign nations, where people are getting better educations and making more money to spend on a greater variety of foods. As a result, the foods industry is joining such scarcity groups

as energy, lumber and steel. Another reason is that demand by American consumers is rising for all goods, a trend which has been going on for the past 15 years.

The speaker said U. S. farmers are expected to put an additional 60 million acres into production within the next few years. Grain prices will probably dip next July as the predicted big crop is harvested, but the drop should be temporary.

He said he also sees more demand for protein foods, such as beef, both in foreign lands and in the U. S. Agriculture operating at top capacity in this country is important commitments are to be filled, the secretary added. Without agricultural exports, the oil import predicament could get even worse.

Brunthaver described American agriculture as no longer the economy's problem child.

"It is now the most dynamic growth industry in the United States," he said.

## ASCS Notes

The basic provisions for proven wheat yields are continued under The Agriculture and Consumer Protection Act of 1973. Producers may elect to establish a yield for a farm based on actual production rather than use the yield established by the county committee on a judgement basis.

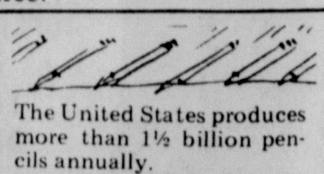

The base period for establishing proven farm yields is 1968 through 1972, the same five-year period used in determining county projected yields. This 5-year base period for wheat proven yields in a program change and the yield for one of the five years can be disregarded if it is abnormally low because of natural disaster.

Production records for 1972 and later years must show disposition of wheat.

Only evidence properly identified by the farm and year of production can be accepted. Scale tickets are not acceptable evidence of production, but bin and open storage measurements, sales or warehouse receipts can be accepted.

Beginning with 1973, producers who plan to prove yields for 1975 and future program years must furnish production evidence in the year of production. Any one wishing to prove a yield for the 1975 program year must furnish 1973 production evidence this year.

In order to assure consideration, a written request to show proof of production must be filed as soon as possible. Production data timely received will be considered before mailing 1974 wheat yields. Anyone needing further information is urged to contact the local ASCS office.

The inflated dollar: you see its effect on your food prices, your housing prices and most other things... just as Texas Power & Light sees it on the cost of everything necessary to produce and supply your electricity.

## FUEL COSTS MORE

To produce electric power, TP&L generating plants must use fuel -- and fuel costs more today than ever before. Since 1952, the price of natural gas, the principal fuel used by TP&L, has risen more than 500%. The Company's 1972 fuel bill was more than \$40 million, 30% higher than in 1971. These trends have continued during 1973.

## CONSTRUCTION COSTS MORE

To counter uncertain supplies and rising costs of natural gas and fuel oil, TP&L must build new generating plants which will use more readily available fuels such as lignite and nuclear materials. Ironically, these plants cost far more to build than gas or oil-fueled plants. A lignite-fueled plant costs more than twice as much per kilowatt as a gas-fueled plant and the cost of a nuclear plant is still higher.

## FINANCING COSTS MORE

Just as most people borrow money to build their homes, TP&L

borrow money to construct its power plants and other facilities. The interest rates the Company must pay on borrowed money are much higher than a few years ago, adding further to the costs of providing electric service.

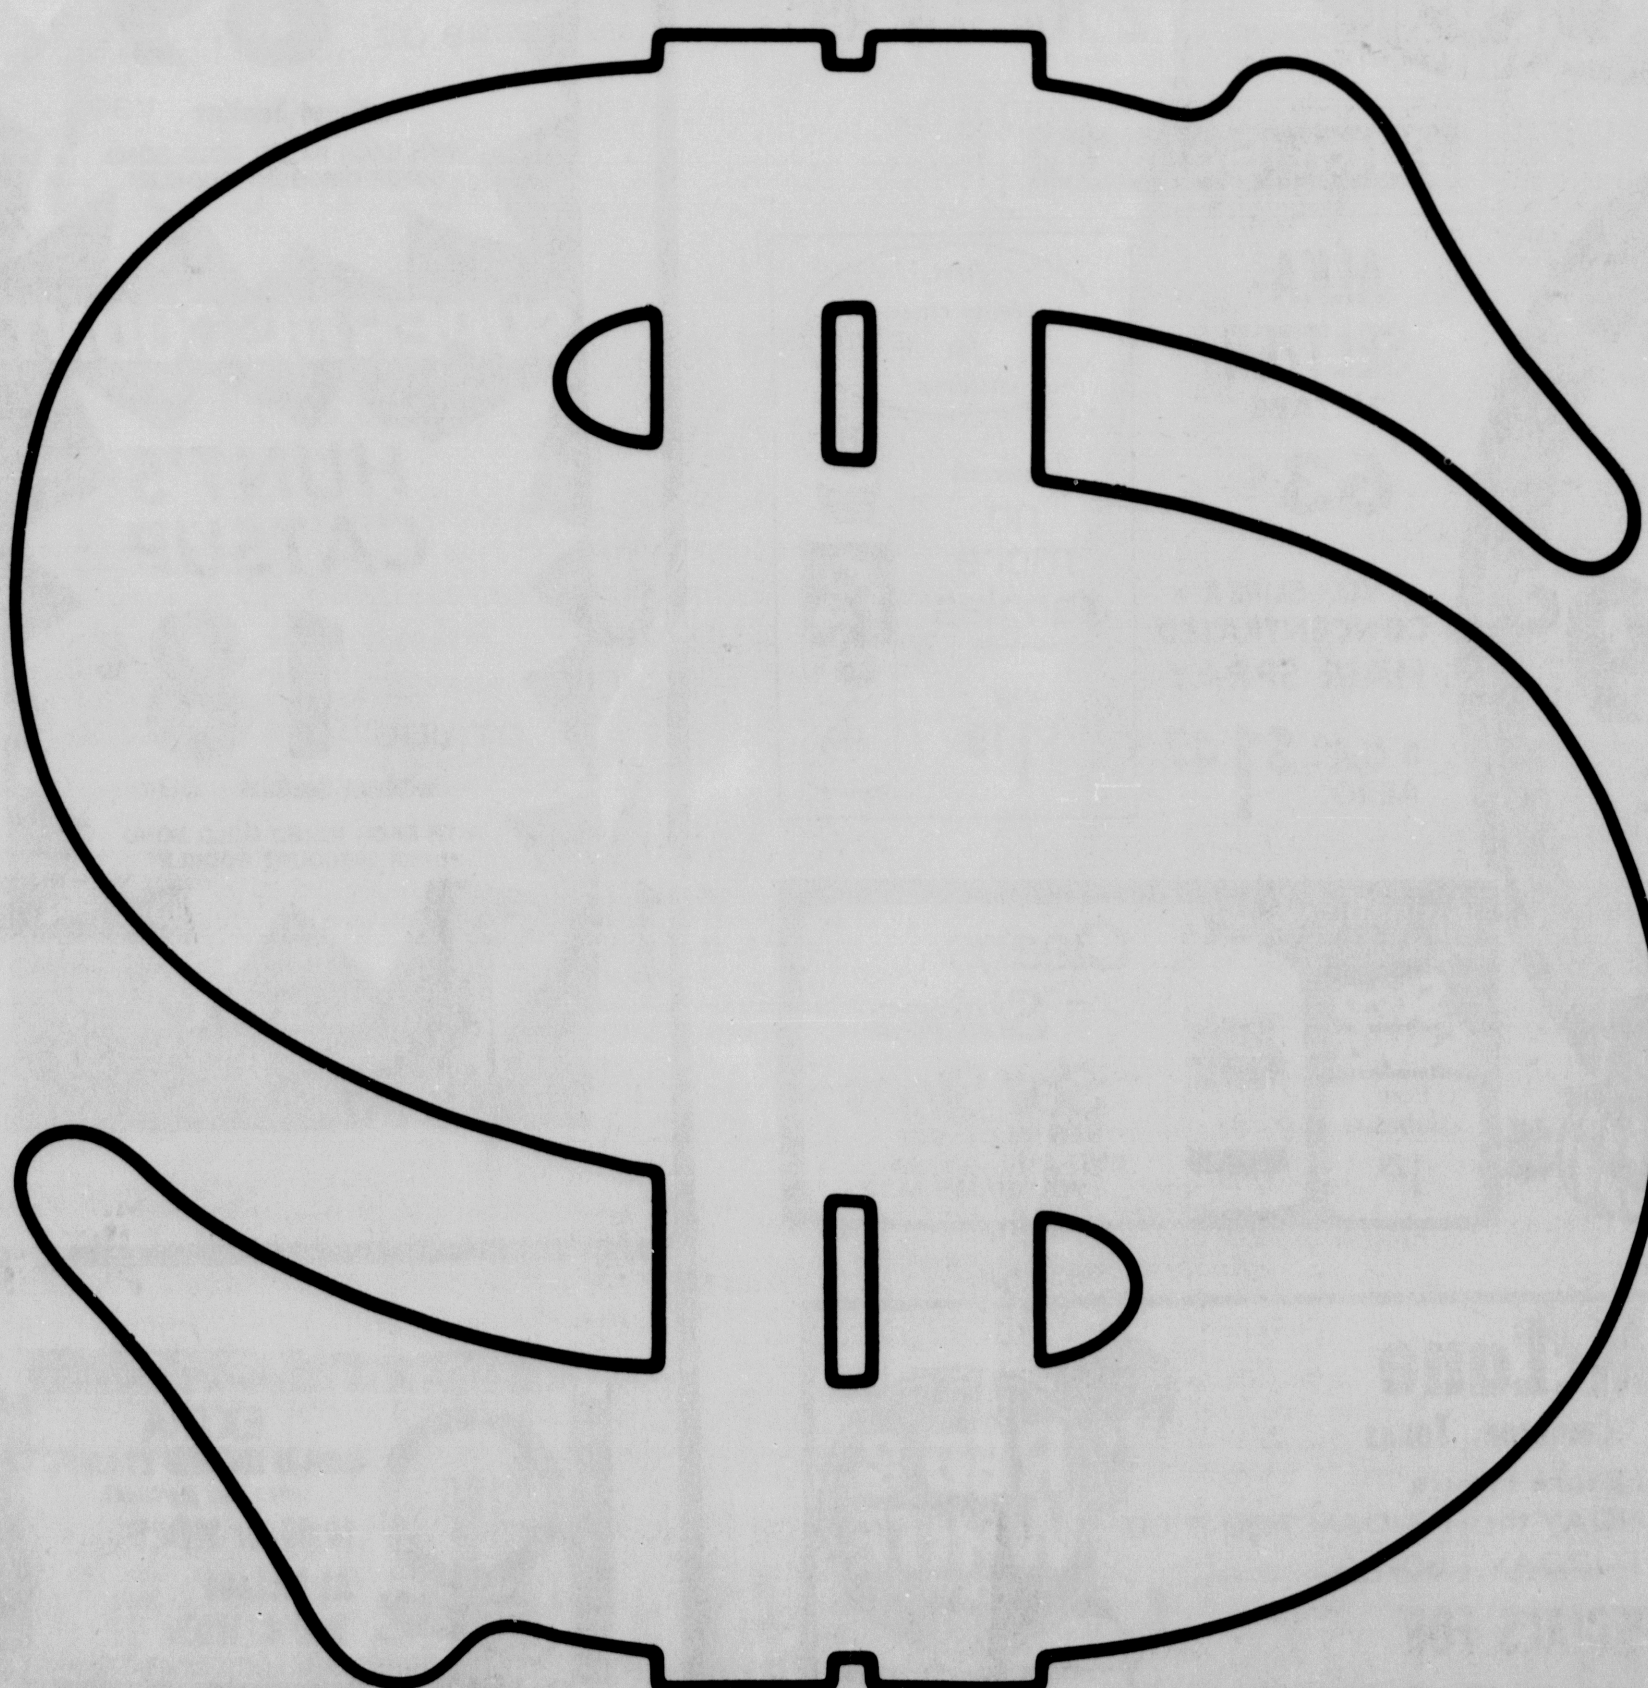

You and all TP&L customers expect an adequate and reliable supply of electric power and we're constantly working to meet this responsibility. However, because of the squeeze of rising costs, it is inevitable that electric rates must be increased in the future.

Although your cost of electric service will be greater in the years ahead, electricity will still be one of the biggest bargains in your budget.

# happening about Town

Page 6 Cameron, Texas, Herald, October 25, 1973

SCHOOL ADMINISTRATORS from across the state met in Wimberley for a two day conference. Among the more than 30 school administrators were from left to right, Dr. Robert Hefner, SWTSU Education Department; Max Schlotter, Revin VII Education

Service Center; W. C. Newberry, SWTSU Education Department; D. R. Dodson, Cameron public schools; H. J. Knight, Livingston public schools; and Dr. Paul R. Hensarling, Texas A&M University.

## Delphian Club Program On Pakistan

Mrs. Norma Foster of Killean told of her family's experiences as residents of Pakistan for three years when she was guest speaker for the Cameron Delphian Club Wednesday.

The Club met at the home of Mrs. Ray Jensen with Mrs. W. C. Freeman as co-hostess.

Wearing traditional Pakistan dress, Mrs. Foster told of the women's role in the predominately Moslem

country. "Young women are calling for changes," she said however most Pakistan women still live a secluded life and have little contact with the world outside their immediate family. She said divorce is easy to obtain, but seldom done and marriages are still arranged by the parents.

She said "blobs", a square of fabric (usually white or black) that cover women from head to toe except for a slit at the eyes, are worn on the street.

"Men hold the jobs as household employees almost entirely," Mrs. Foster said and poverty, illiteracy and poor transportation were listed as major problems.

During a business meeting following the program, Mrs. J. A. Bowling reported on the meeting of Federated Women's Clubs meeting held last week in Austin.

A dessert plate, punch and cake were served during the social hour. Decorations followed a Thanksgiving theme.

## Pumpkins Supreme At Halloween

By Chris Laws  
Co. Extension Agent

It's pumpkin time again -- with those familiar golden orange spheres appearing on the scene.

With Halloween just around the corner, they have come to market in full force.

Pumpkins are famous thorough fact and fiction - from Thanksgiving pies and Halloween's jack-o-lanterns to Cinderella's coach and Peter Pumpkin Eater's famous place.

When purchasing a pumpkin the consumer should choose one that is blemish-free and has a hard rind. Look for on that's heavy for its size.

Extra large pumpkins may have stringy, coarse flesh with less flavor than that of small or medium ones.

Handle pumpkins with care and store in a moderately cool, dry, well ventilated place at about 50 to 60 degrees F. Stored this way, they will keep from two to six months.

For long periods of storage, select pumpkins that

are not bruised or otherwise injured.

As Halloween approaches you can rest assured that other mothers are as concerned over their children's snack choices as you are about your own kids. So when you're choosing your Halloween hand-outs, think "nutrition" as well as "good to eat". Why not choose oranges for the occasion? Since this delicious fruit is the color and shape of a jack-o-lanterns there's an endless variety of possibilities for Halloween. Imagine the delight of kids when they discover a juicy orange jack-o-lantern in their bags! Use a magic marker to draw a variety of faces. And think how much parents of young "trick or treaters" will appreciate your thoughtfulness in giving out those vitamin C-packed oranges.

This Halloween, take a nutritious treat to the dinner table. Prepare a favorite recipe for chili con carne. Top each piping hot bowl of chili with a slice of American cheese cut in the shape of a pumpkin or jack-o-lantern.

Don't worry about wasting cheese just blend the scraps into the chili stirring over low heat until cheese melts.

If you decide to have a Halloween party as part of the festivities, make a curly headed pumpkin for a centerpiece. Hollow out pumpkin; cut out eyes and mouth. Make a round hole for carrot to be nosed in. Fill top of pumpkin with mums, bunches of parsley or curly endive for hair.

While you're thinking about a party, plan one for grown-ups too. Use the pumpkin centerpiece or a simple chafing dish trick featuring oranges and pyracantha. Oftentimes "Quickie" arrangements are more effective than the very belabored ones. Put your chafing dish into double duty. Fill

with the bright orange-red berried pyracantha. Let some of the greenery rest at the base along with several oranges and a lemon.

Here is a menu hint for your Halloween entertaining. Try orange chutney chicken, sunny orange nut rice, asparagus spears, rolls and butter, pumpkin pie, coffee and tea.

## Lions Sale To Help The Blind

The Cameron Evening Lions Club will conduct an all-out drive Oct. 27 to Nov. 3 to sell quality blind-made products to residents and local businesses, according to an announcement made today by Herbert Nance, project chairman.

The articles are all manufactured by blind workers in the Lighthouse for the Blind which are located throughout the state of Texas. The Lion Club's earnings from this sale will be used for community projects.

The entire membership of the Lions Club has been organized to supply friends and neighbors with this quality merchandise delivered right to their homes. Every household can use some type of household cleaning aid and every item sold helps some blind person to help himself.

A large display of goods will be at the old Cameron Lumber Co. building.

Sales of blind-made products held by the Cameron Evening Lions Club in previous years have been most successful and Lion Nance expressed his confidence in another successful sale this year.

## Begin Garden Work Now For Early Spring Blooms

Now is the time to begin garden work for an abundance of winter and spring flowers, says Dr. William Welch, landscape horticulturist for the Texas Agricultural Extension Service.

"Most of Texas enjoys mild enough winter weather to develop a long-lasting and good quality crop of such favorites as pansies, snapdragons, calendulas, candytuft, larkspur, petunias and sweet peas," notes Welch.

When fall planted, these annuals usually bloom from three to six weeks earlier than spring planted ones. "Occasionally, plants may be damaged by extreme temperature changes, prolonged low temperatures or high winds, but many gardeners consider it worth the risk," says the Texas A&M University System specialist.

For best results, Welch suggests preparing the soil several weeks before planting. This allows the soil to settle and chemical fertilizers to dilute so they will not burn tender seedlings. The flower beds should be raised enough to insure good drainage during prolonged wet periods.

"When starting plants from seed, the soil should be kept moist, particularly during the germination period," points out the horticulturist.

A light mulch of straw, hay, pine needles or similar material can be a big help in retaining moisture, preventing soil packing, and maintaining even moisture levels.

Welch suggests planting seed closer than for spring planting to insure a sufficient number of plants even if part of them are winter-killed. "A close stand of seedlings seems to have more chance of survival from winter cold."

### 4-H OFFICERS

The Buckholts 4-H Club elected officers to fill two vacancies at their meeting on October 18. Jocelyn Glaser was elected to serve as council delegate and Raye Nell Obermiller was elected reporter.

Well-rotted manure is an excellent soil conditioner and fertilizer for gardens, says Welch. Chemical fertilizers offer no soil conditioning qualities. Peat moss, gin trash, compost and other organic matter are essential for successful gardening and should compose at least 20 per cent of the garden soil by volume.

## Produce Featured In Markets

Appearance of apples, hard-shelled squash, sweet potatoes and cranberries in markets mean fall is almost here.

Produce sections currently feature numerous fruit and vegetable items, according to Mrs. Gwendolyn Clyatt, consumer marketing information specialist, Texas Agricultural Extension Service, Texas A&M University System.

"Red and russet potatoes, carrots, locally grown cooking greens, celery, head lettuce, sweet potatoes, dry yellow onions, rutabagas and turnips represent the most economical vegetable choices."

"For added menu variety, consider broccoli or eggplant."

The season for Jonathan apples is relatively short, the specialist noted. "Soenjoy this juicy, flavorful fruit now -- they excel for cooking and eating fresh."

"Other apple varieties -- such as Red and Golden Delicious -- also brighten fruit counters."

## LOSE UGLY FAT

Start losing weight today OR MONEY BACK. MONADEX is a tiny tablet that will help curb your desire for excess food. Eat less-weight less. Contains no dangerous drugs and will not make you nervous. ## Personal Mention

Mr. and Mrs. Edward Boudreaux are home after a 25 day guided Historical and Foliage Tour through the New England States and Nova Scotia, New Brunswick, Quebec, and Ontario Provinces, Canada. The foliage was at the peak of their beauty at these places, but the leaves were not yet putting on a show in the Smokies and the Ozarks, which usually happen about the last of October.

Weekend guests in the home of Mr. and Mrs. James Kahler were their daughter Kathryn, a student at

Sophie Newcomb College, New Orleans, and Mrs. Kahler's mother, Mrs. Lon Speer of Stillwater, Oklahoma.

Mrs. Frank Hanel, Mrs. Wavy Charles and Mrs. O. M. Brockman of Rockdale were Milam County delegates to the Texas Home Demonstration Association's 47th annual state meeting in Waco last week. They attended workshops on citizenship, family life, 4-H, health, cultural arts, recreation, safety and publicity as well as special workshops

## Playhouse Opens Comedy

TV and stage comedian Alan Sues stars in John Patrick's comedy "Love Is a Time of Day" which opened Wednesday at the Country Dinner Playhouse, Austin.

Featured with Sues in the two-character comedy will be Patti Heider, an attractive red-haired actress who has appeared on stage, TV and the movies. Jack Stillman, who recently directed Pat Paulson in Chicago and Dallas is the director.

"Love Is a Time of Day" opened on Broadway in 1970 starring Sandy Duncan as a

college girl who, according to the author, "will not get involved unless she's in love." Patrick, who wrote the prize-winning "The Tea-house of the August Moon,"

house of the August Moon," researched college campuses on the current trend toward togetherness in rooming. Sues plays a free-lance writer caught up in the comic aspects of the trend.

"Love Is a Time of Day" will play nightly, except Monday, and a Sunday matinee with doors opening at 1 p.m. Reservations can be made by calling 836-5921.

### WILLIAM ELMORE

FT. POLK, La. Army Private William M. Elmore, son of Paul C. Elmore of Rt. 2 Cameron, completed eight weeks of basic training at the U. S. Army training center at Ft. Polk. He received instruction in drill and ceremonies, weapons, map reading, combat tactics, military courtesy, military justice, first aid, and army history and traditions.

Pvt. Elmore completed basic training with Company B, 4th Battalion, 1st Brigade.

MARINE Pvt. Willie Lavan Jr., son of Mr. and Mrs. Willie Lavan of Cameron, graduated from basic training at the Marine Corps Recruit Depot in San Diego.

## Dinner To Honor Governor

Thousands of Texans will gather in Austin on Tuesday, October 30, to pay tribute to Governor Dolph Briscoe.

A special appreciation dinner for the Governor will be held in the Austin Municipal Auditorium beginning at 7 p.m.

Jess Hay of Dallas, chairman of the dinner committee said that tickets are still available from Democratic leaders throughout the State. Highlighting the evening will be an address by Governor Briscoe.

The crowd will also be treated to a special multimedia program featuring pictorial and live musical entertainment. A portion of this unique program will portray "Dolph Briscoe, the Man and the Governor." Another segment will be devoted to "The Face of Texas."

all of Cameron.

Until recently, agricultural programs have resulted in low food prices and the mere thought of scarcities of food and fiber were beyond the comprehension of most of today's generation. "Therefore, recent price increases may be a blessing in disguise. We all need to appreciate the fact that American agriculture has the everyday challenge and need for feeding the nation's 208 million people, and helping others overseas."

Additionally, the importance of modern agriculture to the Texas economy is vital, for approximately 30 percent of all gainfully employed persons work in some phase of modern agriculture.

Most sites being acquired for vacation homes cost between \$2000 and \$7500, and most are an acre or larger.

TWO FIRSTS AT STATE TECH - for coed Donna Folsom include the status of being the first woman student in aircraft pilot training technology on the James Connally Campus. Last week she made her first solo flight in this Cessna 150 (TSTI Photo)

## Food Abundance Month To Be Observed Here

By Chris Laws

To recognize contributions made by the Texas agricultural industry, November has again been designated as Food and Fiber Abundance Month, notes County Chairman Mrs. Ed Lehmann of Buckholts.

Despite recent price increases, particularly in food the food commodities grown in Texas are still one of the best bargains to be had anywhere. And compared to other developed nations of the world, we are much better off, Chairman Lehmann said.

"Consumers around the world would gladly exchange life styles and living standards with most Americans," she said.

Recent supply and demand conditions have resulted in the higher food prices, but food is still a good bargain compared to most items, she

noted.

"Never in the history of the world have so few fed so many well with such a selection of quality foods. Today's average U. S. farmer produces enough food to feed himself and 46 other people," the chairman said.

Assisting Mrs. Lehmann in planning and conducting Food and Fiber Abundance Month observances locally will be: Mrs. Wavy Charles, Mrs. Robert Orr, and Mrs. Dan Kubiak of Rockdale; Mrs. Edwin Falke, Mrs. Melvin Weise, Mrs. Harold Bair, and Mrs. Leroy Whensche all of Thorndale; Mrs. R. C. McCasland, Jr. of Davilla; Mrs. A. H. Jungman and Mrs. Alvin Fuchs of Buckholts; Mrs. Derwood Cobb, Mrs. Dan McDaniels, Chris Laws, County Extension Agent and Bill McCutchen, County Extension Agent,

## From San Gabriel

By Mrs. Walter McDaniel

Mrs. Dan Beason has returned home from Chester where she spent two weeks with her father J. W. Wylie who has been seriously ill. But when she left he had improved greatly.

Mr. and Mrs. Danny Heine, Darren and Dawn were supper guests of Mr. and Mrs. Johnny Westbrook of Austin.

Mrs. Mae Loop of Leuders, Texas, is visiting her cousin Mrs. Texanna Baird. Mr. and Mrs. Sidney Culp of Sharp were dinner guests of his sister Mrs. Texanna Baird and also visited with his cousin Mrs. Mae Loop of Leuders, Texas.

Mr. and Mrs. Jim McDaniel were in Austin Monday.

Going to the W.M.U. Leadership Clinic in Cameron Thursday at the First Baptist Church were Mrs. Bob Wimberly, Mrs. James Terry, Mrs. Donny Heine and Mrs. Shirley Coffey.

Mr. and Mrs. Joe Yeager were visiting Mrs. W. W. Smith and others in the rest home Thursday in Taylor.

Mr. and Mrs. Ervin Fussel are in Utah visiting his brother Mike Fussel and family they went by plane.

Walter McDaniel, Guinn Gifford and Harrel Muegge

were in Georgetown at their deer lease Tuesday.

Mrs. Jim McDaniel spent Friday night in Austin with her children.

Mr. and Mrs. Guinn Gifford received word Tuesday that their little granddaughter Shannon, had been released from Breckenridge Hospital in Austin and had returned home with her parents Mr. and Mrs. Lewis Gifford to Rockdale.

Mr. and Mrs. Herbert Heine and Mr. and Mrs. Melvin Weise were in Cameron Thursday night for a covered dish supper and program sponsored by the Farm Bureau.

Chester Osbeck and son Douglas and Walter McDaniel were fishing at Mar-

ble Falls Wednesday, "No luck."

Mrs. Dan Beason was in Bravn Friday on business.

## TJC Renames

### Backstage Theater

Temple Junior College has renamed one of its theaters the Jackson-Graeter Backstage Theatre, in honor of Mr. and Mrs. John A. Jackson of Dallas who are furnishing it.

The TJC Board of Regents took the action at its regular meeting Monday. The 100 - seat theater, in the college's Fine Arts Building, previously was called The Backstage Theatre.

Obituaries  
Hollas

Mrs. Joe F. Hollas, 85, of Rt. 2 Buckholts was found dead at her home Sunday morning.

Justice of the Peace Jesse Brock ruled the death due to natural causes.

Funeral was at 10 a.m. Tuesday at St. Monica Catholic Church the Rev. John Geiser officiating. Burial was in St. Monica Cemetery. Rosary was recited at 7 p.m. Monday at Marek-Burns-Laywell Funeral Home in Cameron.

Mrs. Hollas was born in Cameron.

Surviving are two sons, Ervin J. Hollas of Rockdale and Clarence J. Hollas of Cleveland, Ohio; four daughters, Mrs. Herman Bayer, Mrs. Hubert Jistel and Mrs. Alfred Barta, all of Cameron, and Mrs. Robert Fostee of Rockdale; two sisters, Mrs. Rudolph Richter, and Mrs. Ralph Michalka both of Cameron; 20 grandchildren and 21 great grandchildren.

Ainsworth

Mrs. Mary Ainsworth, 80, of Cameron died Friday afternoon in a Temple hospital.

Funeral service was held at 2:30 p.m. Sunday at Marek-Burns-Laywell Funeral Home, the Rev. Don Exley officiating. Burial was in Oak Hill Cemetery.

Mrs. Ainsworth was born in Lee County.

Survivors are five daughters, Mrs. Joe Fikes, Mrs. Coleman Duncan and Mrs. D. R. Laywell, all of Cameron, Mrs. Bill Hays and Mrs. R. B. Brady, both of Houston; one brother, Hans Thompson of Wichita Falls; nine grandchildren and 19 great grandchildren.

Pallbearers were Terry Hardwick, Jim Coward, L. T. Warren, E. J. Provasek, John Batte and Carl Black.

Organist  
Recital At  
Georgetown

GEORGETOWN

Robert Tupper of Washington, organist, will be presented in recital on Thursday, Nov. 1, at 7:30 p.m. in Lois Perkins Chapel at Southwestern University. There is no admission charge to hear this talented musician.

The program includes Clambault's "Suite du Prelere Ton", Sowerby's "Fantasy for Flute Stops", Sweelinck's "Variations on Mein junges Leben hat ein End", Franch's "Chorale in Minor", Bach's "Toccatto in F Major", J. Alain's "Deuxieme Fantaisie", and Rueke's "Sonata" (Psalm 94 "Introduction and Fugue").

A native of Portland, Oregon, Robert Tupper began the study of piano at age six and organ at age 16. He holds the Bachelor of Music degree in organ and piano from Walla Walla College and the Master of Music degree in organ and piano from Oklahoma University. Tupper has also studied organ with Dr. Nita Akin of Wichita Falls.

South Elm  
Sets Revival

The South Elm Church will hold a weekend revival on October 26, 27 and 28 with evening services starting at 7 p.m.

A song service will precede the preaching which will be by Rev. U. S. Lucky of China, Texas. Rev. Ike Hargrove will be the song-leader and Mrs. Evelyn Lucky will play the piano.

The public is invited to attend.

Knights Of Columbus  
Plan Meeting

Leon Seidl of Houston will be guest speaker at the Knights of Columbus meeting Thursday at 8 p.m.

All members of the family are urged to attend. Refreshments will be served after the meetings.

Gospel Singing  
Set At Thorndale

A Milam County gospel singing to be held Nov. 4 in the Thorndale school cafeteria will feature the Merole Conn Gospel Four. The program will be from 10 a.m. to 4 p.m.

There will be a short message at noon and a basket lunch will be served.

There will be several groups singing during the program.

The Merole Conn group will be in concert Saturday, November 3 at 7 p.m. at the Pleasant Retreat Methodist Church.

Rev. Muse To Speak  
At First Spiritualist

Rev. Evelyn Muse will be guest speaker Wednesday, Oct. 24 at 8 p.m. and Sunday Oct. 28 at 8 p.m. at the First Spiritualist Church at 802 South College, Cameron.

The public is invited to attend these services.

Legislators  
Pay Raise  
Endorsed

Texas Municipal League president Jamie Clements today added the endorsement of the Texas Municipal League to the growing list of statewide organizations supporting a pay raise for Texas legislators.

Temple Mayor Clements said, "As public officials, the mayors and councilmen of Texas are acutely aware that the business of state government has become a fulltime job for legislators. But the present unrealistic level of pay for legislators--\$4,800 per year--assumes that financial hardship is the price that members of the Texas Senate and House must pay to serve the public responsibly. This policy is contrary to the best interests of State government and the general public alike, and it is unreasonable to expect high-quality leadership in Austin unless the people of Texas act affirmatively on November 6th to adopt Constitutional Amendment No. 1."

Proposed Amendment No. 1, on the November 6th ballot, would raise the pay of state legislators from \$4,800 to \$15,000 annually. Work sessions would be increased as well, from the present 140-day sessions every other year to 180-day sessions in odd-numbered years and 60-day budget sessions in even-numbered years.

The Texas Municipal League is participating on the "Statewide Committee for the Adoption of Amendment No. 1," a broad-based organization composed of more than 35 civic and professional organizations representing thousands of Texans with divergent political viewpoints. By informing Texas voters of the importance of Amendment No. 1, the committee hopes to gain adoption of the Amendment, which will help to further improve State government and its ability to meet the needs of Texas in the years ahead.

NEEDLE and DREAD

Be brave, Ronnie! It will hurt a little, but it's worth it. No matter how old we are, life requires courage. And we show our greatest courage when we are terribly afraid but fight on through the fear.

Moral courage is sometimes much harder than the physical kind, but whenever we stand up for what our God-given conscience tells us is right, regardless of sneering opposition, we win a shining victory . . . and we keep our self-respect.

It is never too late to start living courageously. If you are facing a life situation that is draining your courage, why not pray about it in church tomorrow? The Christian Gospels assure us, without a shadow of a doubt, that strength will be given us whenever we need it and as much as we need. Remember that life is not a lonely battle. God is always with you.

# HERALD SPORTS

Cameron, Texas, Herald. October 25, 1973 Page 9

## Yoe men Will Host Copperas Cove Bulldogs

The Cameron Yoemen will battle the Copperas Cove Bulldogs in a district clash Friday night at Yoe stadium. After suffering a 10-0 defeat at the hands of Gatesville last week, you can be sure the Yoemen will be ready to redeem themselves against a potentially powerful Copperas Cove team.

Yoe head coach, Ed Cauley said, "Copperas Cove is a large and strong football team that possesses a lot of talent. But we definitely think we can beat them."

Copperas Cove has played only one district game, and lost it 48-8 against a strong Gatesville team.

Cameron has gained a 1-1 district record by defeating Lampasas and by losing to Gatesville.

Cameron will start Gene

Kopriva, Jafus White, George Whiteside, and either Willie Bell or Lorenzo Majors in the offensive backfield.

Guards will be Mike Mueck and Ricky Sapp. Tackles will be Bernard Tepera and Joe Smitherman.

Brian Cobb will start at center, and Ronnie Bennett and Mike White will be directing the end responsibilities.

On defense the Yoemen will start Gary Hornung and Donald Fleming at ends, and Jim Delony and Daniel Rich-

ardson at guards. The line backing staff will consist of Ronnie Bennett, Paul Vaculin, Bruce Zarosky, and Ernie dela Rosa. Craig Friemel, Jafus White, and either Willie Bell or Lorenzo Majors will team up to complete the Yoe secondary.

In other action, the Yoe Junior varsity and Freshmen will play in Copperas Cove, and the Cameron 7th and 8th grade will play Rancier of Killeen at Yoe Stadium. All games will be played Thursday night at 6 and 7:30 p.m.

## Sports - Murray-Go-Round

### FIST CITY -

Well Baylor and those Fighting Texas Aggies go to

Fist City Saturday at storied old Kyle Field by the tracks at College Station. Seems these two old antagonists have not been able to compete lately without a brawl. This time, however, Baylor's Grant Teaff and Aggie IBM Emory Bellard will put enough talent on the field to provide sufficient excitement. Two former All SWC Rice linemen, 1942 End Bob Tresch and 1949 Center Billy Wyman will be all orange Saturday night when their old school ties into Texas on the UT Campus. Billy's son 240 - Pound Bill, is Texas' Three-year Starting Center and young Bob Tresch, a 245 pound junior, is Darrell Royal's starting left tackle.

Frank Broyles, Old Frantic Frankie, makes some bloopers now-and-then. After Dickey Morton ran wild for 260 yards as Arkansas bet Baylor, 13-7, Broyles said, "Dickey has never played anything but a brilliant game for us." How about the 1971 Rice game? Frank benched Morton for fumbling away the contest to Rice. And, said so.

Most unbelievable statement of the '73 football year? Bill Peterson saying, "I'm surprised. I knew it happened to others. But, I honestly did not expect it to happen to me." Most Oiler fans knew Bill was on the way out before his team played its first NFL game. Interesting thing happened day after Bud Adams made Rice happy by stealing Peterson away. In a crowded public place a friend asked what I thought of Peterson, as Oiler Coach. I muttered something about Peterson being colorful but why didn't Bud hire a Winner? Well, some 6-4, 230 - pounder took exception and offered to knock my 5-11, 200-pound block off. Right there. "You will see, Dummy!" he blurted. "Bill Peterson is a genius. A good man." I told him I hoped he was right, did not think he was, but let's just wait and see. Nineteen NFL games later, Peterson's Oiler Record stood: 1 game won 18 lost and Coach Pete gone. Never see that Big Feller anymore.

### Bent Grass Tested For Golf Course

Golfers in Southeast Texas may soon be playing on turfs of creeping bentgrass.

Bentgrass, which grows year round in Texas, is currently under fullscale research by the Texas Agricultural Experiment Station. The project is under the direction of Dr. Richard L. Duble, associate professor in the Department of Soil and Crop Sciences, Texas A&M University.

The grass is well-known throughout the cool, humid northern United States, but research suggests that with proper culture it may also be grown in hot, humid environments like Southeast Texas.

The early Greeks believed that wine drunk from a cup of amethyst could not intoxicate, but many still became stoned.

## The Sports Herald

By Glynn Cummings

Pick up any newspaper, turn to the sports page, read the articles written about last night's football games, and you will find that 90 percent of the time publicity is given only to the offensive backs. Contrary to the belief of many, football is an eleven man sport.

Many times people fail to realize the importance of an offensive lineman. Ask any honest back, and you will find that his best friend is his offensive lineman.

A lineman can throw the block that springs the highly publicized offensive back on his 70-yard touchdown run to glory. A lineman can protect his "glamour boy" quarterback from the char-

Salado	32	Buckholts	26
Rosebud-Lott	21	Fairfield	20

### NEWS BRIEF:

Ed Cauley, Cameron head coach, has announced that next year the Cameron Yoemen will be a member of District 23-AA. District 23-AA consists of teams from Leander, Elgin, Manor, Westlake, Caldwell, Hearne, Rosebud - Lott, and now Cameron.

Cauley feels that this district is neither tougher nor easier than the one the Yoemen are presently in, and stated that Westlake, Hearne, Rosebud-Lott, and Caldwell are all good football teams.
